TO WHOM SO EVER IT MAY CONCERN

M/s Sia Industrial Techno Services, Hyderabad had designed, Manufactured, Supplied, Erected and Commissioned successfully the Hot Water distribution system which was envisaged to increase the efficiency of the existing 1500 Cu. M/ hr. cooling tower of RCC built for a cost of Rs. 4,67,131=50.

The modified system of the cooling tower is working satisfactorily with the newly Hot water Distribution system.

The planning and execution of the project by M/s Sai Industrial Techno Services is found to be professional.

We are confident that M/s Sai Industrial Techno Services is capable of handling total turn key project of cooling towers.

We wish them a great success in their future endeavour.
